SUMMARY

Full-stack developer with hands-on experience building web applications using Spring Boot and Node.js on the backend and React on the frontend, with practical experience in REST APIs, MySQL, and MongoDB, and exposure to Docker and CI/CD pipelines using GitHub Actions.

EDUCATION

Savitribai Phule Pune University — Pune

B.E. Electronics & Computer Engineering | CGPA: 8.74 — 2021 - 2025

Millennium National School — Pune

Higher Secondary Education, CBSE | 87.20% — 2019 - 2021

TECHNICAL SKILLS

- **Languages:** Java, JavaScript
- **Backend:** Spring Boot, Spring Security, Node.js, Express.js
- **Frontend:** React, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Tools & DevOps:** Docker, Git, GitHub, GitHub Actions (CI/CD), Postman
- **Core Concepts:** OOP, DSA

PROJECTS

Xpenso — Personal Finance Tracker | *Java, Spring Boot, React, MySQL, Docker, Cloudinary* — Live | GitHub

- Engineered a Spring Boot backend with 15+ REST APIs, normalized MySQL schema using JPA/Hibernate, and categorized transaction management with dynamic filtering.
- Implemented stateless JWT authentication with Spring Security, Excel export functionality, and email-based account verification.
- Containerized with Docker and configured GitHub Actions CI/CD pipeline with 41 automated unit tests.

Linkly — URL Shortener with Click Analytics | *Java, Spring Boot, React, MySQL, Docker* — Live | GitHub

- Built a Spring Boot URL shortening service with authenticated short-URL generation, HTTP redirection, and persistent click event tracking for user-level analytics.
- Secured endpoints using Spring Security with JWT authentication and role-based access control, with relational data modeled using MySQL with JPA to maintain User–URL–Click Event associations.
- Configured GitHub Actions CI/CD pipeline with 29 automated unit tests covering service and controller layers.

TripTales — Travel Listing & Review Platform | *MongoDB, EJS, Node.js, Express.js, Cloudinary* — Live | GitHub

- Designed a full-stack MVC application with Express, MongoDB, and EJS, implementing authenticated CRUD operations, session-based authentication via Passport.js, and resource-level authorization middleware.
- Integrated Mapbox SDK for dynamic geolocation rendering and Cloudinary for image management across property listings.
- Configured GitHub Actions CI/CD pipeline with 38 automated unit tests for route and middleware validation.

OPEN SOURCE CONTRIBUTIONS

WordPress (Gutenberg) | *React, JavaScript* — Issue #67165

- Developed reusable Storybook stories using React to demonstrate UI component states and behavior (WritingFlow — #70841, BlockPopover — #71140).
- Collaborated on a large open-source codebase via GitHub pull requests, code reviews, and issue tracking.

CERTIFICATES

- Full Stack Web Development — Apna College (Certificate)
- Developing Front-End Apps with React — IBM (Coursera) (Certificate)
- Introduction to Web Development with HTML, CSS, JavaScript — IBM (Coursera) (Certificate)
